

Psychiatry Clerkship

Psychiatry Clerkship

Instructions: Students are expected to have the types and numbers of interactions with patients as shown below. Below each encounter, students must document the initials and date of each patient interaction. A signature of the appropriate supervising resident or faculty for level II* or level IV* exams or procedures is required. This log must be returned to the clerkship director at the end of your clerkship. Indicate if patient is inpatient, outpatient, standardized patient or computer/paper case. Please check appropriate location of encounter.
